Summary

I worked as a software programmer at GRG India, a leading IT company that provides web solutions for various clients. I have been working in this role for 1.5+ years, and I have 3+ years of total experience in web development using PHP, HTML5, and MySQL.

I hold a master's degree and a bachelor's degree in computer science from PICT and Dr. Babasaheb Ambedkar Marathwada University, respectively. I also have prior experience in teaching computer science at a college level. I am passionate about learning new technologies and solving complex problems. My goal is to develop innovative and user-friendly web applications that meet the needs of the customers and the organization. I work with a team of talented developers and contribute to the design, development, testing, and maintenance of various web projects. I also ensure the quality, performance, and security of the web applications. I have successfully delivered several web solutions for clients in different domains, such as e-commerce, education, and healthcare.
